Recognition

OUR EVOLUTION

2016 - 2025

Ticket2U is already Malaysia's largest event ticketing platform, driving millions of engaged users through high-impact events across concerts, expos, sports, and attractions. Now, we're bringing that same innovation and audience reach to the car park industry..

From Facial Recognition (Event) to License Plate Recognition (Car)

After pioneering Facial Recognition Check-In at major events, we've now evolved into License Plate Recognition (LPR) for smart car park ticketing systems — bringing automation, accuracy, and profitability together.

Our Subsidiaries

We started 2016 in Malaysia. 2019 in Singapore and 2022 in Indonesia. Thailand in 2025.
